

**May 10 - 14, 2020**  
**IAA - LIFE & ANNUITIES Section**

**Individual Choices facing Societal Changes**

Can actuarial science bridge the gap between individual and collective choices?

**CALL FOR PAPERS**

Individual Choices facing Societal challenges is the key-focus of this call for papers.

**LIFE & ANNUITIES Section** members (*Life insurance*), the international actuarial community and other academics, experts and professionals who are interested in the fields of Life Insurance and Reinsurance, Investments and Enterprise Risk Management are encouraged to submit a paper to the **Actuarial Colloquium Paris 2020**.

Behind the theme lies the idea that most of the current issues in our world should be addressed and could be solved only by a collective and cooperative approach, although the weight of individuals is sometimes much heavier than the collective sense. We believe that actuarial science and actuaries have a very different way to treat and solve problems, public interest and collective in mind.

The theme of the colloquium will be addressed through a series of plenary sessions, parallel workshops, insightful keynotes and group discussions designed to identify and leverage key trends of actuarial, social and economic research and new technologies to create a strategic advantage for the actuarial profession.

**1. TOPICS**

- 1) Regulatory changes (Solvency II, Basel 3, IFRS17, ICS, IORP2)
- 2) Impact of climate changes
- 3) Public policy choices
- 4) Emerging risks
- 5) Artificial Intelligence
- 6) Behavioral economics
- 7) Consumer choices
- 8) ESG (economic, social, governance) in finance

To assist the Scientific Committee in planning the program, authors are kindly requested to complete the "Expression of interest submitting a paper Form", attached herewith and return it by closing **November 15, 2019** to the email address [CS\\_LIFE@ColloquiumParis2020.com](mailto:CS_LIFE@ColloquiumParis2020.com)

## 2. SPEAKERS CORNER
